

Short CV

	BADER, MICHAEL
	Prof. (apl.) Dr. rer. nat.
	BASF SE, Corporate Health Management
	Germany
	<p>Michael Bader studied chemistry at the University of Muenster and graduated in 1996 at the Institute of Occupational, Social and Environmental Medicine of the University of Erlangen-Nuremberg. He specialized in human biomonitoring and exposure assessment and received the <i>venia legendi</i> in occupational and environmental toxicology in 2007 at Hannover Medical School. Since 2010, he is responsible for the human biomonitoring group and laboratory at Corporate Health Management of BASF in Ludwigshafen. Michael Bader is a member of the German MAK Commission (DFG) and its working groups 'Analyses in Biological Materials', 'Setting of Limit Values in Biological Materials' and 'Dermal Absorption' (chairman), and member of the Biological Exposure Indices Committee of the American Conference of Governmental Industrial Hygienists (ACGIH).</p>
